C language puzzles/tricky (tough) solved programs

This section provides bunch of c programming puzzles, that can improve your logical knowledge to solve complex problems with different methods, you will enjoy c sundae here.

C++ program to keep calculate the sum of the digits of a number until the number is a single digit.

In this program, we are going to implement logic to find sum of digits until the number is a single digits in C++ programming language. let's enjoy the puzzle/trick.

C program to print "Hello C" or any message w/o using ";" in program.

In this program you will learn how to print any string/message (Like Hello World) without using semicolon (;), since we all know that each statement require semicolon to terminate the string. Obviously this program will print message using printf statement, but printf will not be terminated by semicolon in this program, let's enjoy the puzzle/trick.
